

European Security Conference 2016		
June 16		
Time	Speaker	Title
9:00-9:30	Mário Caldeira (ISEG,U.Lisboa)	Registration & Opening Session
9:30-10:00	Gurpreet Dhillon (ISEG,U.Lisboa)	Big Data Needs Big Security
10:00-10:30	Paulo Veríssimo (U. Lux)	Grand Challenges for Cybersecurity of Critical Information and Infrastructures
10:30-11:00	Pedro Veiga (CNCS)	Cybersecurity: Challenges Ahead
11:00-11:30	Coffee Break	
11:30-12:00		
12:00-12:30	Round Table Discussion	The future of Cybersecurity
12:30-13:00		
13:00-13:30		
13:30-14:00	Lunch	
14:00-14:30	Miguel Correia (IST,U.Lisboa)	Big Data Analytics for Host Misbehavior Detection
14:30-15:00	Henrique Santos (U.Minho)	Building a Cybersecurity Curricula: challenges and pitfalls
15:00-15:30	Luís Antunes (FC,U.Porto)	Cyber-sovereignty: sovereignty in a world without borders.
15:30-16:00	Coffee Break	
16:00-16:30	Bruno Horta Soares (IDC)	IDC FUTURESCAPE SECURITY 2016
16:30-17:00	Nathalie RÉBÉ	Forecasting the cloud: the Jurisdictional storm to come
17:00-17:30	Alamgir Hossain	Intelligent Real-time Phishing Detection and Protection Scheme for Online Transaction

June 17		
Time	Speaker	Title
9:00-9:30	Sérgio Nunes (ISEG,U.Lisboa)	Registration & Opening Session
9:30-10:00	João Paulo Magalhães (IPP)	Dealing with Malicious Domains Names
10:00-10:30	Coffee Break	
	Parallel Sessions	Room: Aud. 2
10:30-10:55	Ben Herzberg	Is funding a DDoS worth it? A look at the economics driving the DDoS world
10:55-11:20	Pratap Chandra and Pardhiv Reddy	Attacking and crashing IOT devices via Bluetooth Protocol
11:20-11:45	João Senos	Cyber Defense Behind the Firewall
11:45-12:10	Swaroop Yermalkar	Patients at Risk! Ransomwares Infecting Healthcare
12:10-12:35	Jude Okoro,Pavol Zavorsky	Application of the Dual V-Model Methodology for Highly Reliable and Guaranteed Quality Information Security Management Systems
	Parallel Sessions	Room: Aud. 3
10:30-10:55	Griselda Sinanaj and Frederick Beyer	Do data breaches affect our beliefs? Investigating reputation risk in social media
10:55-11:20	Kishor Krishnan Nair, Albert Helberg and Johannes van der Merwe	Towards a Robust Fingerprint Authentication System Protocol
11:20-11:45	Khin Lwin, Mohammad Sobur and Alamgir Hossain	New Social Engineering Challenges in Phishing - A Case Study of Ransomware Attack
11:45-12:10	Nattakant Utakrit	Online Distance Education Scandals: Where the Trends Go in Today's World
12:10-12:35	Georg Thomas, Patrick Duessel and Michael Meier.	Ethical Issues of User Behavioral Analysis Through Machine Learning
12:35-13:00	Lunch	
13:00-13:30		
13:30-14:00		
14:00-14:30	Paulo Empadinhas (ENISA)	Cybersecurity impact in in the Digital Single Market and European perspective of economic grow.
14:30-15:00	André Zúquete (U.Aveiro)	Data Security Mechanisms for IoT Platforms
15:00-15:30	Nuno Neves (FC,U.Lisboa)	Improving the resilience of SCADA in Critical Infrastructures
15:30-16:00	Coffee Break	
16:00-16:30	Jorge Pinto (AP2SI)	Cybersecurity aspects in the augmented human
16:30-17:00	Gonçalo Cadete (ISACA Lisbon)	ISACA Global survey and Implications for 2016
